While later on in Church, sometimes my mind would wonder away, because of the language problem. The Greek is classical Greek and I understand next to nothing. Bible, because once Jesus had shown me that passage. I asked Jesus to show me again where it was in the whole Bible. After looking for a while and not finding it, it appeared as though I was looking for a needle in a haystack! I thought maybe Jesus did not hear me, and I said louder, O Jesus maybe I should shout maybe You didn't hear! before finishing my last word I had discovered I was saying these words while I had the right page that I was looking for, it was right in front of my nose. So He said to me "why did you doubt?"
